SES SERVICE SUMMARY

(Please limit responses to one word or short phrases. This information will be used in the compilation of a statewide master chart for parents and local school districts.)

Name	Catapult Online
City and County	Statewide (a minimum of 30 students per site is required for program implementation)
Proposed location of service delivery	Available in school sites or at the student's house.
If service delivery is not at the student's school, is transportation provided and, if yes, is there a separate fee? (Note: Districts are not required to provide or pay for transportation.)	Provide SES in schools and also offer the program in student's home thereby eliminating transportation needs
Type of certification of instructors	The policy is to meet all district specifications related to hiring highly qualified teachers.
Individual or small group (maximum number in small group)	1-2 students for each instructor
Length of each tutoring session	60 minutes (average)
Number of sessions per week	2 sessions per week (average)
Cost per session	Fee will vary to allow for maximum number of hours attainable, based upon individual district's federally published per pupil allocations.
Grade levels served	Grades 3-12
Tutoring available in Reading and/or Math	Students will be able to receive instruction in reading OR math.
Title of tutoring curriculum utilized	Based on over 20 years of educational experience. A proprietary curriculum that is used for supplemental instruction has been designed.
Research evidence of effectiveness	Education Station implements research-based programs that also correlate to the standards proposed by the National Council of Teachers of Mathematics (NCTM) and the National Reading Panel (NRP) Report.
Specifics of reporting to parents and school (format, frequency, method of communication)	Communication occurs on a regular basis throughout the program and takes a variety of forms. Student attendance reports are submitted monthly to the LEA. A student plan

	is shared with each parent at the beginning of the program. Communication continues throughout the program in the form of written progress reports, letters, and/or telephone calls, to parents and school personnel. A written progress report is submitted for each child at the conclusion of the program and each LEA receives an End of Program (EOP) report within 45 days of the close of the program.
Description of services available to diverse populations (i.e., special needs, specific languages)	In the 2003-04 school year, Education Station served over 90,000 students nationwide. The demographic profile of the students we serve is 61% African-American, 29% Latino and 8% White. The majority of the students we serve are low income, special needs students. Our programs focus on raising the academic achievement of the lowest performing quartile of students. Our programs focus on students with intense academic needs.
Other Information: A minimum number of students may be required in order to provide programs for both Small Group and eSylvan.

SES SERVICE SUMMARY

(Please limit responses to one word or short phrases. This information will be used in the compilation of a statewide master chart for parents and local school districts.)

Name	Education 2020
City and County	Education 2020 headquarters are located in Scottsdale, Maricopa Country, Arizona. Services are provided statewide for Montana via the Internet.
Proposed location of service delivery	The student's home, school or other location permissible by student's parent/guardian or school.
If service delivery is not at the student's school, is transportation provided and, if yes, is there a separate fee? (Note: Districts are not required to provide or pay for transportation.)	The Education 2020 Virtual Classroom is delivered via computer and coursework may be performed off-line or with an established Internet connection. This flexibility removes the issues regarding student transportation.
Type of certification of instructors	All instructors meet the definition of "highly qualified" set forth under the terms of NCLB, have a minimum of five-years classroom teaching experience, hold a Bachelor's Degree and are state certified in the content they are teaching in at least one state. The majority of instructors have also obtained a Master's Degree.
Individual or small group (maximum number in small group)	Individual
Length of each tutoring session	Average length of a full tutoring session is 50 minutes.
Number of sessions per week	Average number of sessions per week: 3-5 Actual number of sessions to be determined based on individual student need.
Cost per session	\$400 per course per student per year includes textbook, supplemental programs, class materials, software/software license & class manual. Each course supplies approximately 150 hours of content & study; 200 hours of student access is provided. Equivalent cost is \$2 per instructional hour.
Grade levels served	Education 2020 serves grades 7, 8, 9, 10, 11, 12

Tutoring available in Reading and/or Math	<p>Middle School Level (7th -8th grades)</p> <p>Mathematics – Remedial Math, Math Course 2 (7th), Math Course 3 (8th)</p> <p>Language Arts – English 7-Lit., English 7-W/G, English 8-Lit, English 8-W/G</p> <p>High School Level (9th -12th grades)</p> <p>Mathematics – Remedial Math, Algebra, Advanced Algebra, Geometry</p> <p>Language Arts – English 8-W/G, English 9, English 10, English 11-American Lit, English 12-British Lit.</p>
Title of tutoring curriculum utilized	Education 2020's proprietary supplemental educational services program name is E2020 Virtual Classroom™.
Research evidence of effectiveness	Based on an internal study of five schools involving over 1,000 students, Education 2020's program is proven highly effective as a means for improving student achievement as measured by a course completion rate of 85% in 2000, increasing to nearly 95 percent in 2003. The study also found that participating schools have improved graduation rates and seen a reduction in the number of dropouts.
Specifics of reporting to parents and school (format, frequency, method of communication)	<p>Education 2020's proprietary student management software compiles real time data that provides a clear picture of student time on task and performance on assignments and assessments.</p> <p>Information is continuously assessable to the student, teacher, LEA and parents via password-secure Internet location. For parents who have limited skills or intermittent or zero access to a computer with Internet capability, Education 2020 will offer mailed progress reports as specified by the parents. Options will be listed as weekly or monthly, with reports available in the following languages: Spanish, French, German, Italian, Portuguese, Russian, Japanese, Korean, Simplified Chinese and Traditional Chinese.</p>
Description of services available to diverse populations (i.e., special needs, specific languages)	Our program enables a student to not only move forward at his own pace, but mandates remediation through previous demonstrations, activities and lectures so that each student develops a solid understanding of all learning objectives. This approach has been proven

	<p>successful in meeting the unique needs of: Low-income students; Minority students; Migrant students; English Language Learners/Limited English Proficient; At-Risk students including medically challenged, adjudicated, suspended and expelled students; Advanced learners</p>
<p>Other Information: The E2020 Virtual Classroom provides one-on-one core curriculum instruction that is personalized to the needs of the individual student. Serving grades 7-12, the E2020 Virtual Classroom engages the student in the learning process through animations, simulations, videos and a myriad of materials in support of the lesson presented by the virtual instructor. Comprehension is measured and assured through testing delivered for each class segment with built-in remediation tools to prohibit a student from moving forward to additional lessons until mastery of the current lesson is confirmed. Education 2020's program has been utilized as both supplemental and full credit core curriculum primarily servicing disadvantaged and At-Risk students year-round since August 1998.</p>

Name	I CAN Learn® Education Systems (I CAN Learn® Math Centers) (JRL Enterprises, Inc.)
City and County	New Orleans, Louisiana
Proposed location of service delivery	At the student's school
If service delivery is not at the student's school, is transportation provided and, if yes, is there a separate fee? (Note: Districts are not required to provide or pay for transportation.)	N/A
Type of certification of instructors	Montana State Certified Teachers
Individual or small group (maximum number in small group)	Individual and small group (maximum 30)
Length of each tutoring session	Recommended one hour per session
Number of sessions per week	Recommended two sessions per week
Cost per session	\$40 per student per session (cost will not exceed \$783.28)
Grade levels served	5, 6, 7, 8, 9, 10, 11, 12
Tutoring available in Reading and/or Math	Math (Pre-Algebra and Algebra)
Title of tutoring curriculum utilized	I CAN Learn® Education Systems
Research evidence of effectiveness	Since 1995, the I CAN Learn® mathematics program has been evaluated by independent researchers to ensure that it meets its goal of improved academic performance for all students, but particularly for those in low-income schools. Evaluation methodology has typically relied on comparison studies of students taught by traditional methods to those taught in I CAN Learn® classrooms. The evaluation results have been very positive in favor of I CAN Learn® students over traditionally-taught students.

	<p>Ten schools in the Grant Joint Union High School District in Sacramento, California used the I CAN Learn® Algebra & Pre-Algebra courseware during the 2000-01 school year. A comparison of math performance of 6,157 students in traditionally taught and I CAN Learn® classrooms showed clear advantages for I CAN Learn® students (Oescher, 2002).</p> <p>Twelve middle schools and one high school in the Hillsborough County School District (Tampa, Florida) used the I CAN Learn® Algebra & Pre-Algebra courseware during the 2000-01 school year. A comparison of math performance of 59 traditionally taught classes of students-to-students in 59 I CAN Learn® classrooms, matched on the basis of class size, prior achievement, amount of time in math class, proportion of minority students, and time of class, showed clear advantages for I CAN Learn® students (Kerstyn, 2001).</p> <p>Of 6,600 Fort Worth (Texas) Independent School District high school students studying Algebra during the 2000-01 school year, nearly half were enrolled in I CAN Learn® Algebra classrooms. Students in the labs scored 18 percentage points higher than those in traditional courses on the state's algebra end-of-course exam in 2001 (Update, vol.5, no. 2, report from Fort Worth Independent School District, November 2001).</p> <p>In a comparison of 3,079 Louisiana students' LEAP (state-mandated criterion-referenced test) scores, I CAN Learn® students outperformed traditionally taught students by a statistically significant margin. The mean score for the 1,205 I CAN Learn® students was 312.32, a passing score. The mean score for the traditionally taught students was 287.86, a non-passing average. School-by-school comparisons revealed that I CAN Learn® students outperformed traditionally taught students in 12 of 14 schools. Further, the evaluator concluded that "I CAN Learn® student performance exceeds traditionally taught student performance across levels of poverty and across districts" (Brooks, 2000).</p>
<p>Specifics of reporting to parents and school (format, frequency, method of communication)</p>	<p>Progress reports are available at any time via the I CAN Learn® Classroom Explorer® "Reports" function. I CAN Learn® teachers generate individual progress reports on a daily basis. Reports indicate the number of lessons completed and the mastery level. These progress</p>

	<p>reports help the teacher determine if the student's pace is on track or should be accelerated. Teachers also provide individual notes for each student and provide all of this information to parents during regular parent/teacher consultations.</p> <p>Once the student is enrolled in the program, parents meet with I CAN Learn® Math Center staff at regular intervals to make sure the student is on track. During the program, the student is continuously assessed. This data helps facilitate parent-teacher meetings that modify the study program and set new goals and objectives for the student. Parent-teacher meetings can be scheduled as needed but occur on a regular schedule determined by the parent and I CAN Learn® Math Center teacher.</p>
Description of services available to diverse populations (i.e., special needs, specific languages)	<p>The program's individualized pacing allows students from diverse backgrounds and with varying abilities to approach the curriculum in a positive, non-threatening manner that eliminates the "fear of failure." Within the same classroom, students are at different points in the math curriculum from basic math to advanced algebra. Because every student is on a different lesson, no student is denied an opportunity to achieve mastery. Further, there is no stigma attached to being behind the "norm," because other students in the I CAN Learn® Math Center will not know where their peers are placed.</p> <p>Although the I CAN Learn® Education Systems is in English, teachers translate progress reports into most languages. The quality of translation has improved greatly but cannot be guaranteed. We have hiring policies that encourage multi-lingual staff where needed.</p>
<p>Other Information: For more information, please contact: John "Jay" Wehrer, 3520 Gen. DeGaulle Dr., Suite 1100, New Orleans, LA 70114. Phone: (504) 263-4205; Fax: (504) 263-1545. Email: jwehrer@icanlearn.com. Web site: www.icanlearn.com. Hours of operation: M-F, 8 a.m. – 5 p.m. CST.</p>
